INTRODUCTION.

FABRICATED GEORGIAN BENDS & GRILLS.

Most companies are capable of fabricating their own decorative grills. However, having worked out the costs for stock, labour (including holidays and sickness) and the inevitable mistakes, many companies decide to buy in units complete with the grill. However, this will be at a premium price. We can supply the fabricated grill and all you have to do is insert the desiccant and add the glass. We believe it is a reflection of our quality and service that many of our customers have been with us since the company was formed in 1999. The management have decades of experience in the insulating glass industry. It is this experience and knowledge which allows us to run an efficient company and to resolve problems which others cannot.

This is our latest brochure. The first pages show our traditional range of grills which are available in various colours and woodgrains. The following pages show the latest additions of the Inspirations and Crystal Collections. It is not possible to display every design and customers are always coming up with something new. Simply fax over any drawing and we will respond promptly with price and a delivery date.

Duplex, or back to back style grills, have become increasingly popular and we can offer a range of designs using the Duplex System.

Some customers prefer to have mitred joints, some prefer cruciform joints. Mitred joints do look particularly good in woodgrain finishes. We offer both methods on our fabricated grills.

To comply with the move towards energy rated windows, we can offer grills with warm edge spacer. We can also offer a range of curved grills in Swiss V spacer.

I hope you find this brochure interesting and useful.

Susan Preston.
Managing Director.

PRICES FOR DECORATIVE GRILLS

The following prices are based on 18mm and 25mm white/brown georgian bar with sizes up to 1 sq mtr.
Standard grill prices are subject to discount depending on quantity and are based on a minimum size grill of 0.5 sq mtr.

There are surcharges for woodgrain, chrome and all colours of Royale bar. As each order is unique, we suggest you fax through any non-standard grills for a quotation. The price will be sent to you immediately.

For standard sizes and designs as shown on the following price list, use the following supplements:-

All colours of woodgrain, chrome + £10.00 per grill
and royale Georgian

Orders less than £100.00 net of vat, will have a carriage charge of £12.00. Orders over £100 are free of any delivery charge.

A number of small orders delivered together which total more than £100 will be free of any delivery charge.

Orders which can be posted, will be charged at postage rate plus £1.50 for packing. We cannot be held responsible for damage through the Royal Mail.

Please ensure goods are not damaged before signing the receipt form, when goods are delivered by carrier.

INFORMATION NEEDED FOR ALL ORDERS.

- 1 Quantity
- 2 Style
- 3 Are you supplying glass sizes OR spacer sizes
- 4 Size and colour of georgian bar.
- 5 Size and colour of spacer frame.

The above information covers 90% of orders, even being as knowledgeable as we are, there are other questions which may be relevant. Please give as much information as possible on all orders. See following.

- 1 Do fixed and openers need to line through? If yes, how do they line through?
This is relevant to arches, standard grills, in fact most of what we do.
Please always supply a layout of the windows.
- 2 Does the order need to match one already made. We keep drawings of every order and can re produce any grill from any order, even one from many years ago.
- 3 Do you want same size borders on border grills, or do they need to line in. This is customer preference, but we need this information.
- 4 If spacer is curved, is it a true semi circle. If not, we will need a template.

Most stationers have 1 metre wide rolls of tracing paper. This is ideal for templates as it will cater for large grills and still fold easily into an A4 envelope. Use the glass to create the template. This ensures grills made to fit the template will fit the glass.

BACK TO BACK GRILLS.

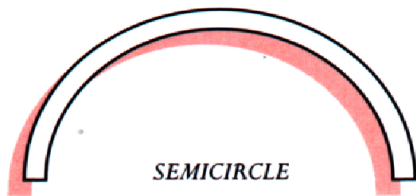

- 1 Quantity
- 2 Style of grill. Drawing preferred.
- 3 Size and colour of spacer frame.
- 4 Size and colour of inner spacer grid. This is usually 2mm less than the outer frame to allow 1mm clearance between the grid and the glass.
- 5 What is the PITCH. i.e. The gap between the back to back spacer bars. Pitches available are 18mm, 24mm and 30mm
- 6 Has the external georgian grill been made? If yes, then we will need a detailed drawing, preferably a template, with internal georgian grid drawn.
- 7 Does this match a previous order? If yes which order, when?

Drops on Georgian Bends/Arches

The Drop formula is calculated as below,

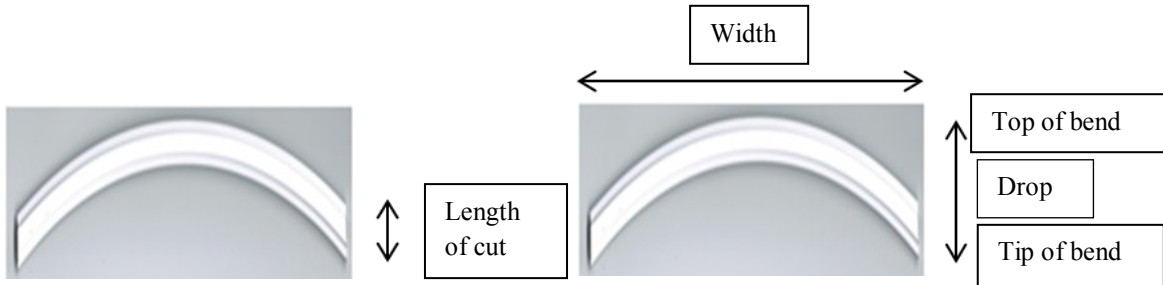

MAXIMUM DROP = HALF THE WIDTH MINUS 50MM.

Why??

Remember that exactly half the width is a true semi-circle. So to minus 50 mm from half the width allows the cut to be made at the side otherwise the bend would look as below,

The length of the cut varies by the size of the width AND by the profile used. The cut size could be as small as 20mm or as long as 75mm. We do not know the length of the cut. We only know the width of the bend and the drop from top to tip, see below

“Drop is Top to Tip”

If you need to remake a bend you need to supply us with this information to ensure an exact copy of the original bend

- 1 The spacer width
- 2 The drop from top to tip.

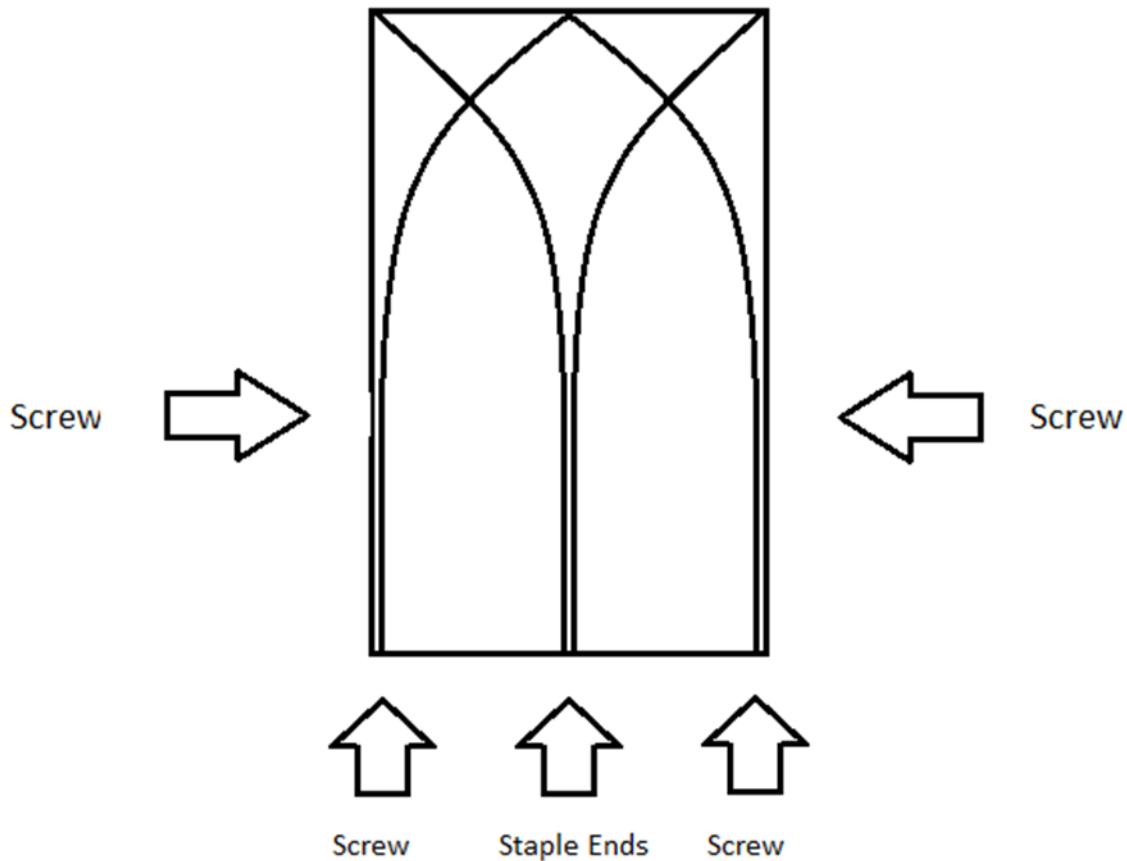

Any other info given, for example “edge of glass to centre of cut” will not guarantee an exact copy. We cannot be held responsible for remake bends not matching the original when the correct information has not been supplied.

Note also that the formula states MAXIMUM DROP. We would normally not make to the maximum drop. This is especially true of woodgrains i.e. foiled bar

We calculate the drop by job not by width. We look at the smallest width and the largest, we look at fixed and openers lining through and we determine the nicest curve taking all these factors into account. A bend should be a bend not a flat with curved ends, though depending on the sizes this might be all that is possible.

Desiccant Insertion – Double Gothic Grills

Double Gothic Grills require careful handling. When inserting desiccant **remove screws from the bottom spacer rail**. Then carefully slide the bottom spacer rail off the grill taking the corner keys and stapled end keys with the spacer. Do not disturb/ dismantle the rest of the grill. Insert the desiccant. Slide the bottom spacer rail back into position carefully fitting Georgian bar into the staple ends. Insert the screws.

Finally, square the grill and ensure joints are tightly squeezed together prior to unit sealing

YOUR RESPONSIBILITIES.

WE HAVE MADE AND WRAPPED THIS GRILL TO A VERY HIGH STANDARD, FOLLOWING A SYSTEM OF QUALITY CHECKS THROUGHOUT THE PROCESS. HOWEVER, THE PRODUCT CAN BE AFFECTED BY TRANSPORT AND HANDLING.

JOINTS MAY WORK LOOSE. DUST MAY BE COLLECTED. THE PRODUCT CAN BECOME OUT OF SQUARE. ALL THESE PROBLEMS ARE EASILY CORRECTED BY A SIMPLE CHECKING PROCEDURE.

RESEARCH HAS SHOWN THAT MOST PROBLEMS ARISE THROUGH OPERATIVES NOT FOLLOWING SOME SIMPLE CHECKS, AND I FEEL IT WILL BE HELPFUL TO YOU IF A LIST OF CHECKS IS INSERTED INTO EVERY GRILL ORDER.

WHILST THIS LIST WILL SEEM SELF EVIDENT TO MOST OF YOU, I CAN ASSURE YOU THE POINTS HAVE BEEN RAISED THROUGH EXPERIENCE. I HOPE YOU WILL ALSO APPRECIATE THAT THIS COMPANY CANNOT BE HELD RESPONSIBLE FOR UNITS WHICH ARE MANUFACTURED WITHOUT FOLLOWING THIS CHECK LIST.

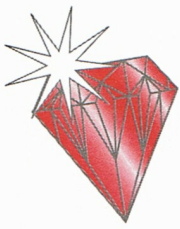

PLEASE ENSURE THE FOLLOWING CHECKS ARE MADE PRIOR TO MANUFACTURE OF UNITS.

1. CONFIRM GRILLS ARE AS ORDERED. CHECK QUANTITY, STYLE, COLOUR AND DIMENSIONS.
2. IF A LINE-THROUGH IS REQUIRED, CONFIRM THE GRILLS DO IN FACT LINE THROUGH.
3. TAKE PARTICULAR CARE WHEN INSERTING DESICCANT. WE RECOMMEND REMOVING THE BOTTOM SPACER RAIL ONLY. TAKE CARE NOT TO BEND THE SPACER BAR
4. RE ASSEMBLE THE GRILL. ENSURE ALL JOINTS ARE FIRMLY PUSHED TOGETHER. ENSURE ALL FIXINGS ARE SECURE. REALIGN THE GRILL AND MAKE SQUARE.
5. ITEM 4 NEEDS EXTRA CARE WHEN HANDLING VICTORIAS AND DOUBLE GOTHICS. IF THE FORCES WITHIN THESE GRILLS ARE NOT BALANCED, I.E. IF THE GRILL IS OUT OF SQUARE AND UNDER PRESSURE WHEN SEALED IN THE UNIT, JOINTS WILL WORK LOOSE AND GAPS WILL APPEAR.
6. ENSURE THE GRILL IS CLEAN, FREE FROM DUST, DEBRIS AND PLASTIC WRAP.
7. CHECK FOR SCRATCHES, MARKS, DENTS ON THE GEORGIAN AND SPACER BAR. IF ALL THE ABOVE STEPS HAVE BEEN FOLLOWED AND YOU ARE HAPPY WITH YOUR GRILL, IT CAN NOW BE GLAZED.

IF YOU ARE IN ANY WAY DISSATISFIED, MAKE YOUR COMPLAINT NOW.

WE CANNOT BE RESPONSIBLE FOR ANY CONSEQUENTIAL LOSS ONCE THE UNIT IS MANUFACTURED

COMPLAINT/CLAIM PROCEDURE

DAMAGED GOODS

Occasionally problems do occur.

IF YOU RECEIVE GOODS DAMAGED VIA OUR OWN VAN

It is unusual for goods to be damaged when delivered by our own van. However, it is your right to refuse goods which are clearly damaged. Please comment on the full extent of the damage on the delivery note.

For orders delivered in good condition, you should sign accordingly. I appreciate it is not always possible to open parcels immediately to check they are correct as ordered and not damaged. However, this should be done at the first opportunity as **claims for damage cannot be accepted if not reported within 24 hours.**

We will replace any damaged goods free of charge as quickly as possible. All damaged goods must be returned for inspection.

IF YOU RECEIVE DAMAGED GOODS VIA CARRIER COMPANY

You must sign that the parcel was damaged on delivery. We have been advised by our carrier company that it is no longer acceptable if the box appears to be intact, and you do not open the box and inspect the goods in front of the driver for you to sign UNCHECKED. Unless you open the parcel in front of the driver and comment that the goods are damaged you will have no claim for damages.

If all parcels are opened and the goods checked we can make a claim against the carrier company. If you do not follow this procedure, we will be unable to make a claim against the carrier for compensation and consequently you will have no claim against us.

If you look carefully at carrier companies terms and conditions, goods that are signed for are signed for as having been delivered in good condition.

We will replace any damaged goods free of charge as quickly as possible. All damaged goods must be returned for inspection.

GOODS MANUFACTURED INCORRECTLY

We will remake all bends and grills at your request but all remakes will be invoiced with carriage charges included where applicable. When the faulty goods are returned and it is clear we have manufactured incorrectly we will immediately issue a credit note for the invoice and any carriage charges.

When faulty goods are not returned for inspection the invoice for remakes stand.
