

# Thermobar

Warm Edge Spacer Tube

for insulated glass sealed unit manufacture

Thermobar (with gas barrier tape)  
Thermobar LITE (without gas barrier)  
Bespoke Corner Keys  
Bespoke Gas Keys and Fittings  
Duplex Fittings

## When trust is vital

You can rely on Thermoseal Group to deliver...

**THERMOSEAL**  
GROUP

The UK's leading supplier of glass sealed unit components and sealed unit manufacturing machinery  
Call 0845 331 3950 or visit [thermosealgroup.com](http://thermosealgroup.com)

30 YEARS OF QUALITY

Thermobar Warm Edge Spacer is Thermoseal Group's own spacer tube. It is manufactured in-house in two versions: Thermobar (with gas barrier tape) and Thermobar LITE (without gas barrier tape, for use with units that have not been gas-filled and are sealed with hotmelt secondary sealant). In addition, we have also developed a range of accessories through our own in-house injection moulding operation, including: Bespoke Corner Keys, Flexi Keys and Gas Keys; Gas Collars and Plugs. Please order using the product codes and descriptions below.

**NOTE:** We also supply compatible Muntin Bar and Fittings. This range is detailed in our Georgian Catalogue.

If ordering for the first time, please contact [sales@thermosealgroup.com](mailto:sales@thermosealgroup.com) for details of the area sales manager in your region.

### Thermobar - with gas barrier tape (boxes in 5m lengths)

7.5mm Black  
Thermobar  
Product Code: B473  
(150M per box)
